## **Somatics & Seated Somatics **NEW\*****

Somatics is a complement to any activity you participate in and helps improve your daily functional movements. As you explore the movements of Somatics you are connecting the body and mind through movement and meditation. As we bring awareness to our bodies (Soma's) we can then help relieve pain, recover from injury, reduce stress and maximize flexibility. These exercises do not just address the body's movement gateways as we walk and breath, but how we carry our stress and tension that leads into chronic neck, shoulders, hips and low back pain. We as individuals view ourselves from the inside looking out otherwise the distinction between mind and body disappears. "We are our own best healers". Somatics is great for MS, Stroke recovery, chronic pain, migraines and much more.

**Note: Somatics requires participants to do mat work on the floor. Seated Somatics does everything on a chair for those who are not able to get up off the floor.**

## Senior Chair Yoga

Chair Yoga is the term generally used to describe a gentle form of yoga that is practiced sitting in a chair, or standing using a chair for support. Chair yoga has helped people with the symptoms of many health issues including: Hypertension (high blood pressure), anxiety, chronic fatigue syndrome, arthritis, vertigo (medical), multiple sclerosis, carpal tunnel syndrome, clinical depression, and chronic pain. Chair Yoga is one of the gentlest forms of yoga available. Complicated maneuvers and complex movements are not present in a Chair Yoga class. Within this type of yoga class, you can cover standing, seated, and prone postures. Most of these classes use the chair only, due to the difficulty of getting down or up from the floor.
